## Title and Abstract

**Title**

Remote Camera For Android Based Smartphones Installed On The Syma X8HG Drone

**Abstract**

The camera on the smartphone was basically to take pictures or video with equivalent quality digital camera or video recorder. The camera on the smartphone lies in two different locations, first place the rear side and the second being in front. Drone Syma x8hg who used to fly a smartphone for the shooting process is controlled from the laptop software, maximum range 80 meters from the drones by remote control. Software on Android devices and laptops must first diinstalasi so both devices can be connected to the web server of the provider to process images from a drone Syma x8hg, the two devices must have a network connection provider respectively. Results from testing the smartphone camera carried by a flying drone can be controlled for filming with the distance is affected by the strength of the signal from the service provider's internet connection, while

Sebaiknya judul dalam Bahasa Indonesia apabila paper secara keseluruhan ditulis dalam Bahasa Indonesia

Abstrak seharusnya berisi: latar belakang dan tujuan penelitian, metode penelitian, hasil dan kesimpulan penelitian

Research gap dan problem statement atau persoalan yang akan diselesaikan dalam penelitian ini berikut tujuan penelitian ini belum muncul pada bagian pengantar paper ini sehingga belum tampak benang merah antara uraian pengantar dengan masalah yang akan

diangkat dalam penelitian/paper ini

Setiap gambar atau tabel yang muncul harus dibahas dan disebut didalam uraian.

Metode penelitian harus diuraikan secara detil baik alur penelitiannya maupun penjelasan untuk setiap langkah yang dilakukan. Proses pengolahan data perlu ditampilkan

Apakah hasil berupa ukuran pixel image yang diambil juga mencerminkan kualitas Gambar?
