Title and Abstract

Title Use of Automation Codecs Streaming Video Applications Based on Cloud Computing
 Abstract Streaming technology is currently experiencing a great progress. Faster internet more users streaming. Streaming services that exist today there are still weaknesses in both the upload speed, streaming speed and limited types of video extensions that can be played. To resolve these problems then made a video streaming service based local area network with a system of cloud computing that can work effectively in terms of upload speeds, streaming and variations in video formats. Video streaming application is classified as a service IaaS (Infrastructure as a Service Cloud) in cloud computing. On the use of streaming applications the user does not need to convert the video, with the purpose of uploading process can be faster and applications can play a variety of video formats.

Editor/Author Correspondence

Editor Subject: [TELKOMNIKA] Editor Decision

[DELETE](#)

2015-11-16

11:44 PM Hero Wintolo:

We have reached a decision regarding your submission to TELKOMNIKA (Telecommunication Computing Electronics and Control), "USE OF AUTOMATION CODECS STREAMING VIDEO APPLICATIONS BASED ON CLOUD COMPUTING".

Our decision is to: Revisions required before second full review cycle

In preparing your revised paper, you should pay attention to:

1. An Introduction should contain the following three parts:

- Background: Authors have to make clear what the context is. Ideally, authors should give an idea of the state-of-the art of the field the report is about.
- The Problem: If there was no problem, there would be no reason for writing a manuscript, and definitely no reason for reading it. So, please tell readers why they should proceed reading. Experience shows that for this part a few lines are often sufficient.
- The Proposed Solution: Now and only now! - authors may outline the contribution of the manuscript. Here authors have to make sure readers point out what are the novel aspects of authors work.

Authors should place the paper in proper context by citing relevant papers. At least, 5 references (recently journal articles) are used in this section.

2. Results and discussion section: The presentation of results should be simple and straightforward in style. You should improve your analyzing and also present the comparison between performance of your approach and other researches. Results given in figures should not be repeated in tables. This section report the most important findings, including results of analyses as appropriate. It is very important to prove that your manuscript has a significant value and not trivial.

3. Prepare your figures in high quality and created by yourself (not copy and paste from other parties). All legends, captions ... in your figures MUST in English.

4. Please ensure that: all references have been cited in your text; Each citation should be written in the order of appearance in the text; The references must be presented in numbering. The references must be integrated also with not less than two papers published on:

- TELKOMNIKA TCEC at <http://journal.uad.ac.id/index.php/TELKOMNIKA>
- IAES Journals (You can find the issued at: <http://iaesjournal.com>, please use "Search Paper" facility in right top side of the website)
- Indonesian Journals at <http://journal.portalgaruda.org>
- IAES Section Journals at <http://section.iaesonline.com>

Please prepare your revised paper perfectly consider the guide. Please get take a look at: <http://goo.gl/FiPFbF>
